

Pricing for animal-assisted and equine-facilitated sessions - January 2023

1 to 1 sessions

£65 per hour; £125 for two-hour session (2 consecutive hours on the same day); £190 for 3 hour session (3 consecutive hours on the same day)

One-off sessions can be booked although we have found that a series of 4 to 6 sessions means that we can work therapeutically over time and deliver a programme catering for the individual's needs. These could be weekly or fortnightly. Several clients have worked with us for much longer periods of time e.g 6 months. All sessions can be designed to meet the targets or outcomes for that individual e.g. EHCP, PEP, and their specific needs.

*A parent/carer or other adult e.g. teacher, TA or PA should be with the young person at all times. Sessions with just the young person and our staff can be arranged after a period of time **if** this is deemed appropriate by all parties.

Small group sessions

£250 - £300 for two-hour session for a group of 2 - 4 young people.

These can be on-off visits or build into a series of bespoke sessions to deliver particular outcomes for the small group. Several schools / groups have worked with us for much longer periods of time e.g over a term or an academic year. All sessions are designed to meet the targets or outcomes for your specific group of young people and their specific needs. It is also possible for the group to work towards Awards such as NOLA (National Outdoor Learning Award) or short ASDAN courses (animal care or environmental issues)

*The appropriate number of supporting adults should be with the group at all times. Staffing ratios need to be carefully considered with groups and is of particular importance where specific sensory, social, emotional needs and behaviours are present. Please inform us of any young people who have attached risk assessments prior to your visit.

All bookings can be made via our website www.goxhillheartsandminds.co.uk or by emailing Jayne directly at goxhillmeadows@outlook.com

Visits to us are welcome prior to booking to discuss needs and requirements.

We are fully insured, risk-assessed, DBS-checked and have relevant policies and procedures in place. We are also licenced by the local authority to use our animals for this educational and therapeutic work. All documents can be produced on request.

Please note that all invoices for the required number of sessions must be paid for prior to your visit as per our **Booking and Cancellation Policy**.
